***Allowable Subject Matter***

Claims 1 and 3-6 are allowed.

The following is an examiner's statement of reasons for allowance:

The arguments presented by the applicant in the response filed on November 19, 2003 are persuasive. The prior art fails to disclose the electron beam proximity exposure device and method having a mask in proximity to a substrate, blanking aperture and electrode and beam shaping means to produce an electron beam having a small width in the direction of scanning and a large width in a direction perpendicular to the direction of scanning as recited in claims 1 and 5. Claims 3-4 and 6 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
